

THE BUTTERFLY FLUTTER

Cross of Hope Lutheran Preschool May 1, 2011

Happy Spring everyone! Our classroom has been changed out for the last month of school. This month we are science theme is ocean and we will be learning fishy songs and create some fishy art! We also have a fun campground set up in the housekeeping area!

Most of the children are beginning to blend some sounds together to read simple words. You might want to pick up some early readers from the library with easy, 3-4 letter words for your little one to read. If your child can already read, that is wonderful - but remember for most, this is just the beginning of their reading development and we don't want to add pressure. We really want them to go along at their own pace and develop the love of reading so it can last through their lifetime.

We are focusing on math this part of the year. The children have been doing a lot of pattern practice and sequencing and are doing very well!

Please take note of the following:
